

## PERSONAL DETAILS

---

**Name:** Jackson Kent  
**Date of Birth:** 26 November 1993  
**Address:** 100 Byangum Road, Murwillumbah NSW  
**Email:** jacksonkent70@gmail.com  
**Mobile:** 0416252611

## BIO

---

I am a highly motivated, well organised individual with over ten years experience in the hospitality industry. Having worked in managerial and wholesale roles in the specialty coffee world for seven years, I moved into a technician/support role at Brewtech. Brewtech is an industry leading coffee machine and grinder servicing company based in Melbourne. I was the first team member in Sydney, a team which has now grown to six people, in quick succession.

Music is another great passion of mine. The completion of my Bachelor Degree in Creative Technology at JMC Academy two years ago led to my involvement in an internship at Parliament Studios, Leichhardt. Subsequently I am currently working as a freelance audio engineer and producer. I am also a professional musician, playing both sessions and performing in bands that have toured Australia, Canada and the United States.

I am currently completing the Coding Bootcamp at the University of Sydney in conjunction with Edx. I am in the final stages of the course and have covered a multitude of in demand concepts: HTML, CSS, Javascript, Node.js, Express.js and React. Moving into the software engineering and development space feels like a natural progression of my skills, one which I'm extremely excited about.
